

## TITLE -NURSING

Define Euthanasia?

Euthanasia-is a painless death or intentional ending of a life of a person suffering from an incurable or painful disease at his or her request to die, the aim is to end unbearable suffering with no prospect of the patient getting well. Also known as mercy death. Four methods of Euthanasia are Active Passive Indirect and Physician-assisted -suicide.

2. What the law regarding Euthanasia in the state of Florida? What are your personal thoughts regarding the Euthanasia?

Florida has the largest number of elderly populations in the nation making the issue of Euthanasia the most a relevant legal question. In [ code section 765.309] of Florida statues says that nothing construed to condone authorize or approve mercy killings or Euthanasia or to permit affirmative to end life other than to permit the natural process of dying.

The withdrawing of life prolonging the procedures from a patient in accordance with any provision in this chapter does not, for any purpose to end a life.[code765.309]

3.What are your personal thoughts regarding the Euthanasia?

Euthanasia allows the person to die with dignity. Euthanasia best because it's a very gentle and quite death which happens without painful convulsions. Perception also existed that there is no chance of improving these leaves people sense of hopelessness which often is a driving factor to the decision of to seek Euthanasia.

Pain relief: Euthanasia can prevent or reduce the pain the patient can endure .Forcing people to suffer against their will is wrong and allowing them to end the sufferings morally justified.

More control over final decision in life - Euthanasia provides more control over the final decision of life which reduces the physical and the emotional toll to everyone involved a kind of relief to the person in pain as well as well as the rest of the loved ones.

Less caregiver guilty-Patients suffering from terminal illness feel like they are burden to the family. They tend to push away people because Of emotional guilty and shame that they have concerning their caregivers.

Frees up medical funds -The use Euthanasia could free up medical expenses, because patients who tend to become sick for long causes large amount of hospital expenses. Euthanasia is considered as the choice to reduce more money getting spent on dead ending cases.
