

Three things about baseball history and one thing you think should be done.

Baseball is a game played with a bat and ball between two teams of nine players each on a large field having four bases that mark the course a runner must take to score.

The game evolved from older bat-and-ball games already being played in England by the mid-18th century. Back in England it was called rounders. This game was brought by immigrants to North America, where the modern version developed. By the late 19th century, baseball was widely recognized as the national sport of the United States.

Baseball is popular in North America and parts of Central and South America, the Caribbean, and East Asia, particularly in Japan, South Korea, and Taiwan. The story of Baseball is mostly the story of America. It is an epic overflowing with heroes and hopefuls, scoundrels and screwballs. It is a saga spanning the quest for racial justice, the clash of labor and management, the transformation of popular culture, and the unfolding of the national pastime.

Three things about baseball history is that,

1. Pete Rose Breaks the All-Time Hit Record

September 11, 1985, was a historic day for baseball as Cincinnati Reds player Pete Rose broke Ty Cobb's all-time hit record of 4,191 hits. Rose's record-breaking moment came at Riverfront Stadium in Cincinnati when he hit a single off San Diego Padres pitcher Eric Show. The crowd cheered as Rose achieved the milestone, cementing his place in baseball history.

Rose's career spanned over 24 seasons, during which he played for the Reds, Philadelphia Phillies, and Montreal Expos. Throughout his career, Rose amassed an incredible 4,256 hits, a record that still stands today. Rose was known for his aggressive play style and ability to consistently make contact with the ball - earning him the nickname "Charlie Hustle."

2. Don Larsen's Perfect Game

Game 5 of the 1956 World Series is remembered as one of the greatest pitching performances in baseball history. New York Yankees pitcher Don Larsen took the mound against the Brooklyn Dodgers and threw a perfect game, an achievement that had never been accomplished in

World Series history before.

Larsen's performance was nothing short of extraordinary. He threw 97 pitches for the game, striking out seven batters and not allowing a single hit or walk.

3. Jackie Robinson Breaks the Color Barrier

One of the most memorable moments in baseball history occurred when Jackie Robinson became the first African American player to enter the MLB. Robinson's arrival paved the way for countless other players of color to join the league and broke down barriers that existed for far too long.

What I think should be done,

I believe that baseball can also do well in Africa just like in America. Introduction of baseball games in Africa, in such a way that African countries compete against each other like in case of football would be of best advantage not only to the players but also to the fans too as they may earn some money increasing their living standards. Jackie Robinson breaking the color barrier proves that Africans are capable of playing baseball. It should be also introduced in African schools and colleges to create a strong foundation of the game.
